OUR PROS KNOW GOLF COURSES

Let our team of highly trained, expert golf course builders help you rent the right equipment for the job.

Managing and maintaining a golf course is no easy task. The typical 18-hole golf course can require upwards of a hundred different pieces of equipment for upkeep and conditioning. Strategically leveraging equipment rentals can dramatically reduce those golf course maintenance and management costs.

Sunbelt Rentals offers cost-effective and efficient rental solutions for the construction, care and maintenance of your golf course. Our highly trained professionals can help you rent the right equipment for the job. Whether you need help with your irrigation project, turf installation or course renovation, our team and unmatched inventory can keep your golf course looking its best year-round. We can even help you clean up after a disaster — we have the tools and equipment to get your course back open and welcoming customers.

Throughout North America, Sunbelt Rentals can assist your club and contractors with a customized equipment plan that's right for you. Every Sunbelt Rentals team member operates with these promises in mind: availability, reliability and ease.

OWN YOUR RENOVATION

Our rental equipment line has everything you need to take on your course's next big renovation or construction project. Whether you are leveling tee boxes, replacing or relining bunkers, installing or maintaining synthetic turf, or renovating the greens, cart paths and irrigation systems, our equipment helps you get the job done.

We offer cost-effective and efficient solutions such as:

- Skid loaders
- Utility vehicles
- Ground protection mats
- Dozers
- Tractors and dump trailers
- Pump solutions
- Excavators
- Compaction rollers
- Pipe fusion machines
- Four-wheel dumpers
- Trenchers

RIGHT EQUIPMENT, RIGHT PRICE.

We know that owning your equipment can be a large percentage of your budget. Sunbelt Rentals can reduce that cost with rental solutions that help you easily maintain the condition of your golf course and clubhouse. Whether you're trimming trees around the property, replacing lightbulbs in the parking lot, installing or repairing netting, or powering your irrigation pump station during an outage, we have rental solutions for all your maintenance needs.

Vermeer BC1000XL Chipper

Our equipment offering includes:

- Aerators
- Compaction rollers
- Blowers
- Chippers
- Forklifts
- Mobile elevating work platforms
- Ground protection mats
- Floor care equipment
- Generators
- Heating and cooling solutions

Sunbelt Rentals has over 1,000 locations throughout North America, online account management and 24/7 support. No matter what you need, we can get it when you want it.

Rental Solutions for All of Your Maintenance Needs

Sports Netting and Turf

Our fleet of equipment can help your team construct and maintain netting systems and artificial turf.

Your Netting Repair Solution

We can help with every stage of netting installation and repair for your course. Whether it's accessing the site, installing poles or simply reaching the netting (up to 180 feet high), we have the right equipment to help you complete the job.

With ground protection mats, excavators, mobile elevating work platforms and material handling equipment, we can help you get the job done safely.

Your Golf Course's Turf Solution

Whether you're performing regular upkeep or installing new turf, Sunbelt Rentals offers a variety of equipment solutions to meet your unique needs, including material handling and earthmoving equipment, skid steers, compaction equipment and rollers.

OUR PROS KNOW SAFETY

As one of our core values, safety is our top priority. We focus on continually and properly educating each of our employees to reduce the risk of injury, and we happily extend safety education opportunities to our customers.

Sunbelt Rentals offers heavy equipment operator training for operators of our equipment, including boom lifts, scissor lifts, forklifts and earthmoving equipment. Our operator training courses will teach you the skills you need to work safely and efficiently while in compliance with OSHA and provincial regulations.
